

**PCE-AC56 Dual-Band PCI-E Adapter**

**802.11ac**  
**Wireless-AC1300**

**Experience the super-fast wireless performance**

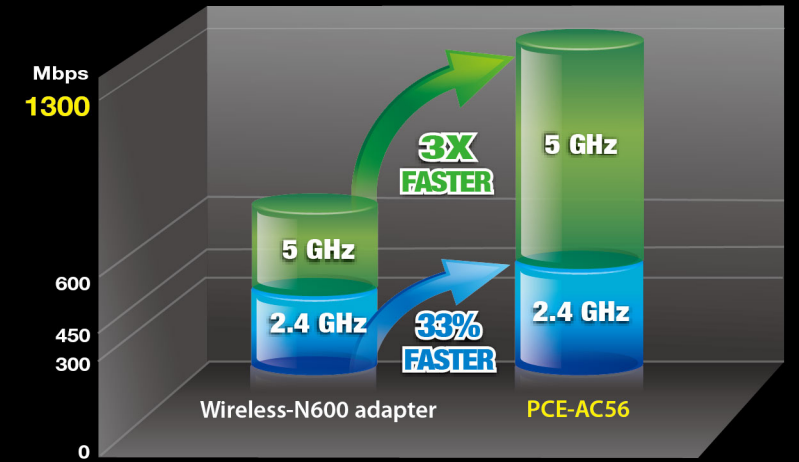

1. Up to 900 Mbps wireless data for HD streaming, online gaming, and other intensive tasks
2. Mountable antenna base for the most stable and strongest signal transmission.
3. AiRadar strengthens wireless coverage up to 150%

**IPv6 Support** **Win8 Support**

**PCE-AC56 Dual-band Wireless-AC1300 PCI-E Adapter**

**Unprecedented Wireless Speeds**

PCE-AC56 Dual-band Wireless-AC1300 adapter delivers the fastest wireless data speeds for the latest generation 802.11ac with up to 900 Mbps on the 5 GHz band and TurboQAM™ technology enhancing the 2.4 GHz band up to 400 Mbps. Pair with an ASUS router for unprecedented wireless speeds that rivals a hardline Ethernet connection.

**AiRadar Enhances Wi-Fi Performance**

ASUS AiRadar uses 802.11ac beamforming technology, high power amplification, and exclusive ASUS RF fine-tuning for 150% extended signal coverage, dynamic data speed increases, and enhanced stability.

**Mountable Extended Antenna Base**

PCE-AC56 comes with an external antenna base that's magnetized for easy placement on a PC delivering optimized signal speed and stability.

**SPECIFICATIONS**

Network Standard	• IEEE 802.11a/b/g/n/ac	Operation Channel	• North America • 2.4 GHz band: 1~11 • 5 GHz band: 36~48, 149~165
Interface	• PCI Express x1		• Europe (ETSI) • 2.4 GHz band: 1~13 • 5 GHz band: 36~48
Size	• 99.5 mm x 69.0 mm	Data Rate	• 802.11b : up to 11 Mbps • 802.11a/g : up to 54 Mbps • 802.11n : up to 300 Mbps • TurboQAM (2.4 GHz): up to 400 Mbps • 802.11ac : up to 867 Mbps
Antenna	• 2 x R SMA antennas • 1 x External antenna base		
Operating Frequency	• 2.4 GHz • 5 GHz		
Weight	• 105g/0.231lb
