dLAN® 1000 duo+

Highlights:

- Lightning-fast Internet connection: The dLAN® 1000 duo+ sends the Internet to any room through the power socket.
- Fun for all: The two LAN ports can be used for devices such as smart TVs and games consoles.
- High performance: 1000 Mbps for lightning fast data transfer rates.
- The optimal Internet connection for computers, televisions and game consoles. No signal loss – stable and continuous.
- More power: devolo range+ Technology also provides strong connections over long distances.
- Plus one more: The integrated front power socket ensures no power outlet goes to waste.
- Safe and secure: devolo generates a unique password for each adapter to protect your network.
- Minimal energy consumption: Innovative devolo PowerSave technology saves energy through continuous, intelligent management with complete automation.
- Connecting everywhere: The dLAN® 1000 duo+ is compatible with all conventional routers and all devolo adapters.
- Ready to use: Simply unpack it, plug it in and you're done.
- Outstanding performance: devolo is the world market leader in the Powerline area and has already sold over 33 million dLAN® adapters.
- Complete 3-year warranty.

The Powerline technology ensures a stable Internet connection with significantly longer ranges. Uses your power outlets even more efficiently.

Easily connect all of your devices to the Internet: devolo have the ideal Powerline solution for every application.
